

Solar street light specifications

15W

Technische Daten:

- **Power:**
15W
- **Solar Panel:**
18V/35W
- **Battery:**
Lithium iron phosphate 3.2V 30AH
- **LED:**
SMD3030,192PCS
- **Efficacy:**
200LM/W
- **Luminous Flux:**
3000LM
- **Controller:**
PWM
- **Lighting Method:**
Microwaveinduction+
segmentationtime control+
intelligent control
- **Discharge Time:**
12 hours a night, can be on for 3-5 rainy days
- **Installation Height Recommended:**
4-5m

Product size:

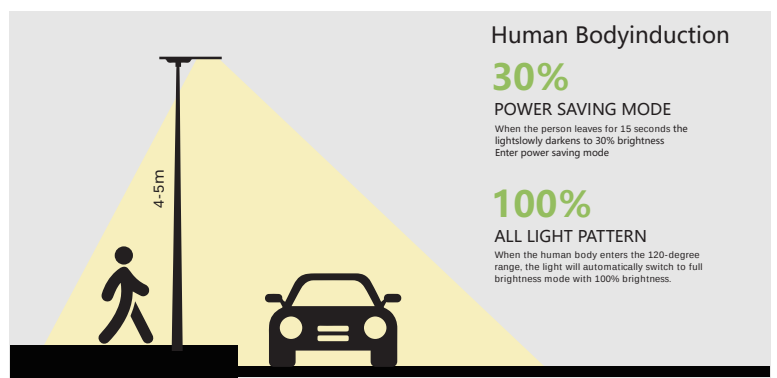

LED SOLAR MASTLEUCHTE

IP65 waterproof rating, suitable for various lighting scenes: rural roads, municipal roads, highways, scenic spots, outdoor basketball courts, parks, communities, etc

Function & Lighting Behavior:

The lights automatically turn on at dusk every day, with a lighting power of 15W (100%). When no one passes by after 15 seconds, the power drops to 4.5W (30%). When someone passes by, the power of the light rises to 15W (100%), and drops to 4.5W (30%) 15 seconds after the person leaves. This working mode continues until the light automatically turns off at dawn, and the light automatically turns on the charging mode for a new day.

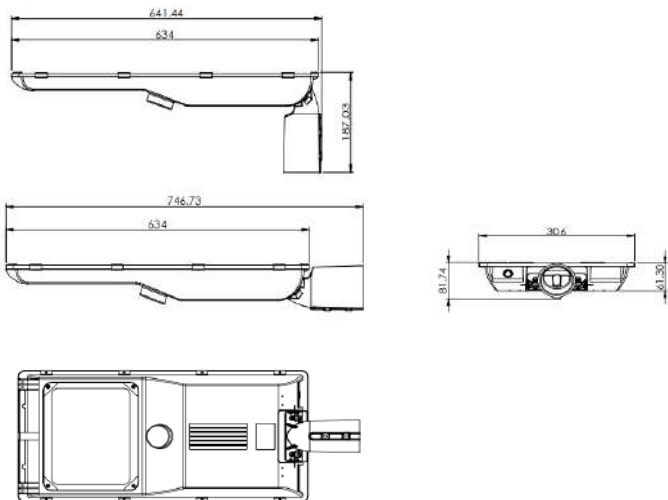

Solar street light specifications

20W

Technische Daten:

- **Power:**
20W
- **Solar Panel:**
18V/35W
- **Battery:**
Lithium iron phosphate 3.2V 52AH
- **LED:**
SMD3030,192PCS
- **Efficacy:**
200LM/W
- **Luminous Flux:**
4000LM
- **Controller:**
PWM
- **Lighting Method:**
Microwave induction +
segmentation time control +
intelligent control
- **Discharge Time:**
12 hours a night, can be on for 3-5 rainy days
- **Installation Height Recommended:**
5-6m

Product size:

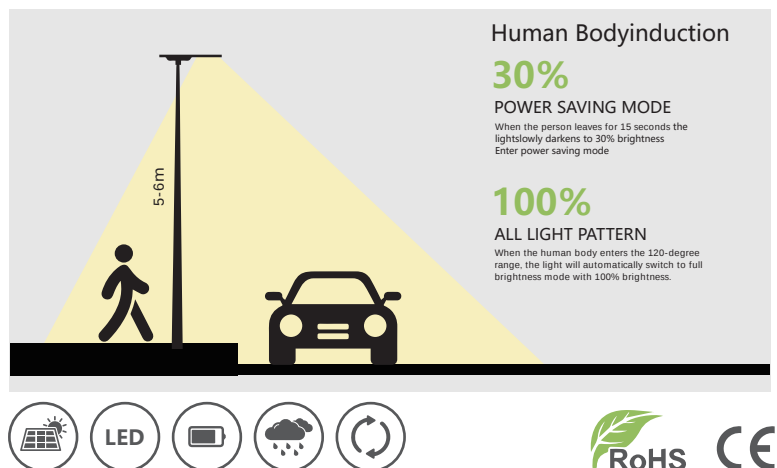

LED SOLAR MASTLEUCHTE

IP65 waterproof rating, suitable for various lighting scenes: rural roads, municipal roads, highways, scenic spots, outdoor basketball courts, parks, communities, etc

Function & Lighting Behavior:

The lights automatically turn on at dusk every day, with a lighting power of 20W (100%). When no one passes by after 15 seconds, the power drops to 6W (30%). When someone passes by, the power of the light rises to 20W (100%), and drops to 6W (30%) 15 seconds after the person leaves. This working mode continues until the light automatically turns off at dawn, and the light automatically turns on the charging mode for a new day.

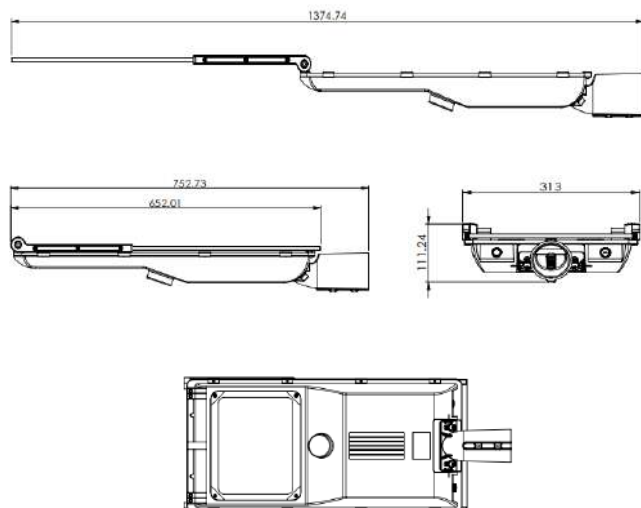

Solar street light specifications

30W

Technische Daten:

- **Power:**
30W
- **Solar Panel:**
18V/70W
- **Battery:**
Lithium iron phosphate 3.2V 75AH
- **LED:**
SMD3030,288PCS
- **Efficacy:**
200LM/W
- **Luminous Flux:**
6000LM
- **Controller:**
PWM
- **Lighting Method:**
Microwave induction +
segmentation time control +
intelligent control
- **Discharge Time:**
12 hours a night, can be on for 3-5 rainy days
- **Installation Height Recommended:**
6-7m

Product size:

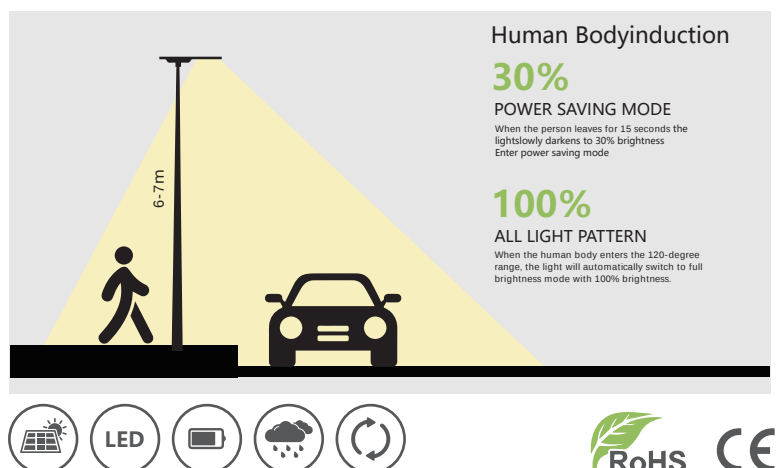

LED SOLAR MASTLEUCHTE

IP65 waterproof rating, suitable for various lighting scenes: rural roads, municipal roads, highways, scenic spots, outdoor basketball courts, parks, communities, etc

Function & Lighting Behavior:

The lights automatically turn on at dusk every day, with a lighting power of 30W (100%). When no one passes by after 15 seconds, the power drops to 9W (30%). When someone passes by, the power of the light rises to 30W (100%), and drops to 9W (30%) 15 seconds after the person leaves. This working mode continues until the light automatically turns off at dawn, and the light automatically turns on the charging mode for a new day.

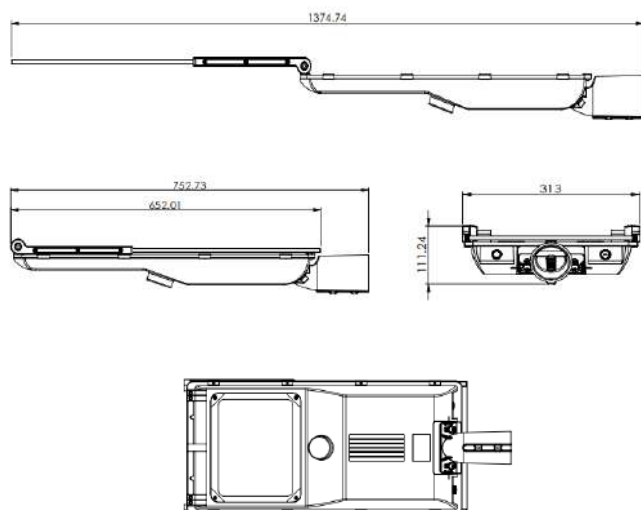

Solar street light specifications

40W

Technische Daten:

- **Power:**
40W
- **Solar Panel:**
18V/70W
- **Battery:**
Lithium iron phosphate 3.2V 100AH
- **LED:**
SMD3030,288PCS
- **Efficacy:**
200LM/W
- **Luminous Flux:**
8000LM
- **Controller:**
PWM
- **Lighting Method:**
Microwave induction +
segmentation time control +
intelligent control
- **Discharge Time:**
12 hours a night, can be on for 3-5 rainy days
- **Installation Height Recommended:**
7-8m

Product size:

LED SOLAR MASTLEUCHTE

IP65 waterproof rating, suitable for various lighting scenes: rural roads, municipal roads, highways, scenic spots, outdoor basketball courts, parks, communities, etc

Function & Lighting Behavior:

The lights automatically turn on at dusk every day, with a lighting power of 40W (100%). When no one passes by after 15 seconds, the power drops to 12W (30%). When someone passes by, the power of the light rises to 40W (100%), and drops to 12W (30%) 15 seconds after the person leaves. This working mode continues until the light automatically turns off at dawn, and the light automatically turns on the charging mode for a new day.
